Our New Hampshire Correc CONCORD, N. H., June 11, 1853. Late State Convention-Mr. Burke vs. the Ad-

ministration—Unsuccessful Attempt of the "Old Guard" to Head Gen. Pierce—Young Democracy Triumphant—Pennacook in Commotion "for one day only"—Proceedings of the Convention— "Politics Make Strange Bedfellows," &c. In commenting on the telegraphic report of the proceedings of the New Hampshire Democratic State

Convention, held in this city on Thursday, as published in the HERALD on the following morning, you remark as follows, relative to the resolution virtually censurng President Pierce " for neglecting the claims of national democrats while making selections for of-Ice," which Hon. Edmund Burke unsuccessfully

attempted to have passed:—
"What is not a little singular, Mr. Burke, who offered
the obnoxious resolution, was himself the president of the
reavention."

The despatch was not sufficiently definite, perhaps, in detailing the order of organizing the convention. It was called to order by John H. George, Esq., Chairman of the Central Committee; and on motion of Mr. Fowler, of Bristol, Hon. William P. Wheeler, of Keene, was appointed chairman pro tem. On motion of Mr. Brown, of Ossipee, it was voted that a committee of ten-one from each of the counties-be appointed to nominate permanent officers of the convention, and the Chairman named the following, who

Mesers. Brown of Ossipre; Sanborn, of Deer leld; Grey, of Dover; Mooney of Gilmenton; Butters, of Pittsfield; McKean, of Nashvile; Colony, of Keene; Sanborn, of Washington; Churchill, of Lyme, and Bedel, of Colebrook.

After this committee had retired, and previous to their return, Mr. Burke made a motion that a committee of ten be appointed by the chair, to report resolutions. The motion was agreed to by the convention. The chairman then appointed the following gentlemen, placing Mr. Burke, the mover, at the head of the committee, agreeably to the customary usage, and as a matter of courtesy:-

Messrs. Burke, of Nosport; Robinson, of Concord; Smith, of Dever, Felton, of Haverhill, Lamprey, of Hamp-ton; Hubbard of Shelburne; Holbrook, of Survy; Chass, of Conway; Walker, of Gilford; and Moore, of Manches-

officers for the government of the convention, subsequently returned and reported Mr. Burke for President, with ten Vice Presidents and three Secre-

quently returned and reported Mr. Burke for President, with ten Vice Presidents and three Secretaries. Their report was accepted, and the officers took their seats, as follows:—

Hon Edward Burke Newport, President: Richard Jennes, Portsmouth Charles W Woodman, Dever: Joseph Robinson, Concord; Dana Woodman, New Hampton; Samuel H Ayer, Manchester; Elijah Sawyer, Swansey; Dysr H. Sabburn, Waskington: John Pearwy Taftonborough: David C. Churchill, Lyme; Elifot Harper, Errol—Vice Presidents William P. Wheeler, Keene; Horace C. Bacon, Exeter; Fracus R. Chase, Conway—Secretarias. [It will be seen that Mr. Burke moved the appointment of the committee to report resolutions, after the officer-nominating committee had retired. When the latter came back and reported Mr. B.'s name for President, he did not resign his place on the resolution committee, but continued to act both as President and resolution—maker.]

After finishing the business named above, and appointing a committee to consider and report on the credentials of members, the convention adjourned until half past one o'clock in the afternoon. During the intermission, the resolution committee met. Mr. Burke was prepared with a series of resolutions, among which was the following:—

Resolved, That we encourage ourselves with the belief that our distunguished fellow citizen, now at the head of the government of the United Stares, will not in his future] appointment of the United Stares, will not in his future] appointment of the United Stares, will not in the democratic party, upon whom he must rely for successful support in all the emergencies which may arise in the progress of his administration. [nor confer too many favors or those who "sucport the platform for one purpose and spit upon it for anothe." and who have no real sympathy with the great autional democratic party or its principle.]

2. The above resolution was debated in the committee; although a large majority disapproved of the whole of it, they finally agreed to report it for the

principle.]
The above resolution was debated in the committee; although a large majority disapproved of the whole of it, they finally agreed to report it for the action of the convention, after striking out the words included in brackets. Upon being reported, with this modification, in the convention, at its afternoon assion, (Mr. Burke presiding.) Sammel H. Ayer, Esq., f Manchester, who was a delegate to the Baltimore onvention, studied his profession with Gen. Pierce, and was formerly Speaker of the House, moved to trike out the objectionable resolution entirely. Mr. Lyer, according to the Patriot—
Made a most elequent and cutting speech in support of its motion and in sefence of the administration—a speech which elicited hearty appause from the convention, and cut factions of the quick. Judge Ainsworth also supported the motion, and Dr Smith of Dover, and Mr. Robinson of Concord members of the committee, expressed their disapproval of the resolution. Mr Chase of Congray, also of the committee declared that he codulally approved of the course of General Pierce. Mr. Williamson, of Claremont, did not thick the resolution was designed to consure the President, but he would vote to strike it out, because others shought it did. No man had the courage to raise his voice in condemnation of the administration, or in defence of the re-olution as it was evidently intended to be understood. And after it was stricken out, the brief and emphatic resolution of Mr. Ayer, cordially approving of the official acts of the President, was responded to with so bearty as denthu-iastic an approval that not a solitary voice was found to object to it.

After the rejection of Mr. Burke's resolution, Mr. Ayer introduced the following resolution (the same

After the rejection of Mr. Burke's resolution, Mr. Ayer introduced the following resolution (the same as I sent you by telegraph, only the word "hearty," before "support," was printed in the Herald of Friday morning "party"), which was adopted una-

Resolved, That the administration of Franklin Pierce, as manifested by all his official acts is worthy of the hearty support of the democracy of New Hampshie. In commenting upon these proceedings, the New Hampshire Patriot makes the tollowing significant editorial remarks:—

Hampshire Patriot makes the tollowing significant editorial remarks:—
"Tous ended the first public attempt to induce the democracy of New Hampshire to condomn the administration of Gen Pierce; and thus we confidently predict will signally fail every attempt of the kind, however or by whomsever it may be made. The democracy of New Hampshire condially approve and will firmly support that administration against all the assaults of its open enemies as well as the covert thrusts of its secret foss—against federalists and abolitionists as well as against factionists within their cwn ranks. This may as well be distinctly understood now, and all men should govern their actions accordingly."

I append, for the purpose of placing a correct transcript upon file in the Herald, a statement of the ballotings for Governor and Railroad Commissioner; also the complete series of the resolutions

the ballotings for Governor and Railroad Commissioner; also the complete series of the resolutions as finally adopted by the convention, and the list of the Democratic State Committee. They will be found of general interest, embracing as they do matters touching the course of the new administration, approving of the acquisition of Cuba, the Sandich Islands, &c.

The following was the ballot for a candidate for Governor.

2. Resolved. That we condulty approve of the principles so elequently connected by the President of the United States in his late inaugural address, believing them to be sound indicious and democratic and that if bey are latifully carried out in the practical administration of the government, as we believe they will be bey cannot fail to result in permanent benefit to the substy, and in the neutronion of the cause of siberty indrepublican principles here and elsewhere.

3. Resolved, That, with respect to the creat national gues presented by the escultieus adopted by the late attornal Democratic Convention at Baltimore upon blich the recent Preside till election was not gridually high and won, the democracy of New Haronding remain upchanged, that we reterate our attach ment to the Constitution and the Union, and our attach ment to the Constitution and the Union, and our attach ment to the Constitution and the Union, and our attach ment to dedity of any perion of the copie is those great are greatly of any perion of the copie is those great are greatly of any perion of the copie is those great are greatly of any perion of the copie is those great are greatly of any perion of the copie is those great are greatly of any perion of the copie is those great are greatly of any perion of the copie is those great are greatly of any perion of the copie is those great are greatly of any perion of the copie is those great are greatly of any perion of the copie is the Constitution, and their power to establish each for itself, without his draines or moleculation from the people of the other States, such domestic institution as they may deen best for the

4. Resolved, That in the judgmunt of this convention, the platform adopted by the late Baltimore Convention cannot be regarded as a compromise of principle, nor as an amnesty to factions that have for years been arrayed sgainst the democratic party and the Union, except upon the cendition of unqualified recognition of and adhesion to its principles, and undoubted assurance of future fidelity and devotion to the democratic cause.

6. Resolved, That to the policy and provess of the democratic party, the Union is indebted for the acquisition of Louisiana, Florida, Iexas, California, Oregon, Utah and New Mexico, thus extending the dominion of the Pacific, increasing its area to more than treble its size at the close of the Revolution, and advancing it to the first rash of nations in dignity, power and grandeur.

7. Fesoived That the people of New Hamshire are in favor of fregality and economy in the expenditure of the public money; that they are opposed to too much legislation for special and private interests; that they view with alarm the multiplication and encroaching disposition of corporations; and that they earnestly desire those who represent them in the legislative councils of the State to watch carefully in the present crisis over the

delegations from the several counties, and agreed to as follows:—

Sultican—Edmund Burke, of Newport; David Montgowery, of Acworth.

Grafton—N. B. Felton, of Haverhill; Samuel Herbert of Runney.

Coos—James M. Rix, of Iancaster; Hazen Bedel, of Colebrook.

John H. George, Esq., of Concord, was appointed to call the first meeting of the above committee, and the next Convention to be held in Concord on the "second Thursday next following the first Wednesday of June," 1854.

By the above summary of the proceedings of our democratic politicians, you will see that Mr. Burke's attempt on behalf of the "Old Guard," to head Gen. Pierce, because he will not give them all the offices, has proved a complete failure, at least so far as the President's native State is con-zerned. What the result is to be elsewhere, we don't know, but nons verons. The young democracy here claim a triumph, and say Mr. Burke's old guard is nothing more nor less than the concentrated tail of old fogyism, who want to guard Uncle Sam's money chests forever and ever, amen, and can't. They also assert that the "Old Guard" will soon probably receive large accessions to its ranks from among the disappointed office seekers (numbering ten hundred to every one appointed)—that the abolitionists, in this quarter, are already siding with the malcontents; and that large numbers of Georgia "Union men" and Mississippi "Southern rights" disciples are anxiously expected to do likewise. Well, "politics make strange bedfellows," that's a fact. Lucky that you and I are above them, isn't it, Mr. Bennett? At the age of thirty we were as bad as the worst. Pennacook.

A Son of the Forest.—A sturdy son of the forest, whose copper color, straight black hair, and high check bones, gave unmistakeable evidence of his paternity, quietly seated himself in the Senate gallery resterday. His dark eye wandered, the perspiration rolled down his swartly cheeks, his long black hair soon covered most of the features of a well formed tace, and he loiled over on one side in the enjoyment of a quest map. The poor fellow was so intoxicated that he soon occupied full six feet of the seat, and snored audibly. The sergeant at same conducted the poor Indian to the door.—Albany Argus, June 11. FINANCIAL AND COMMERCIAL.

MONEY MARKET.

Monday, June 13-6 P. M.
The unfavorable financial intelligence from Europe has had a depressing influence upon our money market, and there appeared this morning in re disposition on the part of holders of fancies to sell. The coal stocks were particularly active, and they were freely offered. At the first board Morris Canal declined % per cent; Canton Com-pany, %; Cumberland Coal, %; Nicaragua Transit, %; Parker Vein, %; Erie Railread, %; Harlem, %; Norwich and Worcester, %; Hudson Railread, %. Michigan Southern Railread advanced 1 per cent; New Jersey Zinc, 14. There were moderate sales of Phoneix Coal to-day, at a decline of % per cent from last sale. At the second board prices generally were lower, and the market closed with a downward tendency. The advanced rates ruling in Eng-land and France for money, and the active demand at these rates from the commercial classes, must sooner er have its effect here A scarcity of money in Europe will be very likely to produce a scarcity in this market, and, perhaps, throughout the country. An immense amount of fereign capital is temporarily invested on this side of the Atlantic, most of which is placed so that it can be easily withdrawn. In the event of the rates of interest advancing any further on the other side, from a continued demand, larger amounts will be ordered home, and we would soon be made to realize a stringent money market.

The receipts at the office of the Assistant Treasurer of this port to day, amounted to \$135,000; payments, \$213,906 92—balance, \$7,467,454 67.

The sales at the Mining Board to day, were as follows:-Railroad for the first five mouths, during the last six

Every month, and every year, as the above shows, there has been a continual increase of income derived from the traffic of this road; and if the present direction desire to stand fair with the stockholders of the company, they will increase the dividend payable on the 1st of August next, and in justice to them, it should and ought to be larger, and the stockholders will be very much dissatis-fied and disappointed if it is not done. They have a right to expect a larger dividend, and ought to get it. The re reipts of 1840 were quite insignificant with what they now are, and we hope the directors will deal just'y by the stockholders in respect to the coming dividend.

There was a private sale of 15 000 shares McCullock Gold and Copper stock at 3% per cent; four per cent was offered, buyer 30 days. The following is an extract from a letter received by a gentleman of this city:—

a letter received by a gentleman of this city.—
"I visited the McCollock mine yesterday, and it surpassed anything I ever saw. The velo of gold ore is from two to twenty feet in thickness, and very rich, and easily mixed. One man can mine as fast as a whim can nake it out. There Is an immense body of copper ore. It exceeds anything I ever saw, with, prhaps, the exception of the Fentress or North Carclina Company's mine. It is a great thing."

The Georgia and Florida Railroad Company have raceived advices by the Facilic, from their President, Mr. Senator Foot, that he has successfully negotiated the bonds of the company at par, for railroad iron, which has already been shipped and is on the way to Georgia.

The location of a portion of the Philadelphia, Easton and Water Gap railroad, and the contracts entered into for a vigorous prosecution of the work, shows that the capitalists and commercial classes of the city of Philadelphia are in earnest. They have been fairly waked up to the importance of completing this railroad by the steady progress of the New York system of internal improvements in 'hat direction. It is estimated that the distant of from I kiladelphia to Rochester, on Lake On arto, and to Dunkirk on Lake Eric, is at least ofty miles less than from

the city of New York to those barbors.

The receipts of the Cleveland and Pittsburg Railroad Company for the month of May, 1853 were \$35 364 44 against \$25 332 50 for the corresponding month last year, showing an increase for the month this year of \$10,022 14.

A portion of this weekly excess is offset by remittances of stock securities, and probably a good portion of the balance by the exports of merchandise from other ports in the country, over and above the imports. Nearly every other port in the Union has a large export trade, compared with its import trade, with, perhaps one or two exceptions. New York is the only port of entry where the importations exceed the exports. Returns, therefore, showing the value of the imports and exports of this port, are no criterion of the condition or position of our
